

Reels for Aviation Industry

Reels for Aviation Industry

Hose & Reel Products B.V. is the European designer and manufacturer of tailor made, high quality hose and cable reels for the aviation industry market.

Hose & Reel Products is the specialist in designing hose and cable reels for this area. The reels can be build including hoses/cables, controls, etc. For quite some years Hose & Reel Products is operating in this market and achieved many goals.

What is the advantage of reels instead of other methods:

- User friendly;
- Compact (small footprint);
- Saving time (unrolling and rolling);
- High lifetime;
- No more danger of unstored loose hoses on the workplace after the refuelling.

Whatever your need, we have a solution:

- Reels for Kerosene, Jett A fuel and all other kinds of liquids, gases and cables used in the aviation industry.
- Light weight & custom made design.
- Reels are equipped with explosion proof components, according EC Declaration of Conformity (ATEX Directive 94/9/EC).
- Grounding reels according the latest European and Worldwide regulations (e.g. very low resistance < 0.5 ohm).
- Hoses supplied with coupling like: ISO 45 and quick release couplings.
- Reels meet the highest international quality and safety standards.
- Available materials: steel, stainless steel 304 or 316 and aluminium.
- We can deliver the complete package: Reels, Hoses, Couplings, refuelling guns, flow meters etc.
- Manufactured for easy installation.
- E-coating and every kind of colour required.

Hose & Reel Products BV is the European Reel manufacturer that can provide it's customers the convenience of a simple Reel with the applications of a fully customized Reel according to their purposes.
